ACADEMIC DETAILS

•Graphic Era Hill University, Bhimtal *2020 – 2024*
B.TECH in Computer Science CGPA: 8.4

•Cynthia Senior Secondary School, Haldwani *2020*
Class 12th, C.B.S.E CGPA: 8.72

•Cynthia Senior Secondary School,Haldwani *2018*
Class 10th, C.B.S.E CGPA: 8.92

INTERNSHIPS

•Aryabhatta Research Institute of Observational Sciences (ARIES) *October – December 2023*
Web Developer intern Nainital
– Developed several responsive web pages using HTML , CSS , JavaScript , MySQL and PHP.
– Worked as a Website Tester(Usability tester) on core projects.

•Bharat Intern *August – September 2023*
Web Developer intern Haldwani
– Developed several responsive web pages using HTML , CSS , JavaScript , MongoDB , React , Node , Express.
– Worked on projects like cloning of a website.

PROJECTS

– **Real Time Chat Application** *link*

∗ Build a dynamic Real-time Chat Application with MERN stack, enabling seamless communication through user authentication, private/group chat, real-time updates, and multimedia sharing. Foster instant conversations in a connected, responsive online environment, prioritizing user experience, security, and modern communication needs.

– **E-commerce Website** *link*

∗ Created an E-commerce platform using the MERN stack that ensures customers enjoy a smooth and secure online shopping journey. Simultaneously, provide administrators with effective management tools to handle products, orders, and user data efficiently.

– **Expense Tracker System** *link*

∗ Developed a robust Expense Management System leveraging the MERN stack, with a core focus on delivering an efficient, user-friendly, and reliable platform. This system empowers individuals to effectively oversee their financial transactions, ensuring a professional and seamless experience.

Technical Skills and Interests

Languages: C , C++ , HTML , CSS , JavaScript

Library: Reactjs , Redux , Socket.io

Frameworks: Expressjs , Bootstrap

Cloud/Databases: MongoDB , MySQL

Subjective: Object-oriented programming , MySQL , Data structures and algorithms , Software Engineering , Operating System

Areas of Interest: Full Stack Web Development(MERN)

Achievements

– **LeetCode Profile :** Solved more than 500 coding questions. *Link*

–**HackerRank Profile :** Earned 5-star rating by solving a variety of DSA coding problems. *Link*

CERTIFICATION

– **HTML, CSS, and Javascript from Coursera** (May 2022) *link*

– **C++ from Sololearn** (January 2023) *link*

– **Problem solving from Hackerrank** (November 2023) *link*

– **Full Stack Web Development(MERN) from UDEMY** (July 2024) *link*
